

# City of Belmont Capital Infrastructure Fact Sheet

## Facilities

The City of Belmont manages over 160,000 sq. ft. of built space in facilities spread across the City and constructed over a period of 100 years. The facilities require considerable investment to ensure continued use and resolve deferred maintenance issues, including:

- **The Manor Building**, consisting of 5,725 square feet and being one of the oldest buildings in Belmont, was constructed in 1908 and refurbished in 2009, will require a fire sprinkler system, flooring and lighting;
- **Barrett Community Center**, originally constructed in 1949 as a school, was converted to a community center, and is a facility that is at the end of its useful life. A recent report recommended its replacement ([Barrett Ad Hoc Committee Report](#));
- **Belmont Library**, built in 2006, is a heavily used facility and requires constant maintenance, and presents challenges related to building style and type; and
- **City Hall**, built in 1983, was substantially remodeled in 2006, and is in need of a roof replacement, siding repair, flooring and painting.
- **Fire Station 15**, located at the corner of Cipriani and Ralston, has been identified for replacement.

With the exception of the Belmont Library, which has a dedicated revenue source, the balance of facilities has no recurring revenue and represents a risk to the City's General Fund or Fire Protection District in the event of failure.

**Funding Level**
