Highlights

2018 California Coastal Cleanup Day – Belmont Creeks to Bay

City of Belmont is hosting its annual *Belmont Creeks to Bay* cleanup on Saturday, September 15, 9:00 AM to Noon.

Signup will take place at 9:00 AM in front of City Hall (One Twin Pines Lane). Garbage and recycle retrieval supplies will be provided but volunteers are encouraged to bring their own buckets, bags, gloves, etc. A couple of the cleanup sites may be muddy, so bring boots or an old pair of shoes you don't mind getting dirty.

The poster features the title "California Coastal Clean-Up Day" in large blue letters, with "Belmont Creeks to Bay" in green below it. Logos for the City of Belmont, California Coastal Commission, and the State of California Water Pollution Prevention Program are displayed. It includes the text "Volunteer Info (650) 595-7425 or Visit www.Belmont.gov". On the left is a scenic image of a coastline with the text "CALIFORNIA COASTAL CLEANUP DAY" and "SATURDAY SEPTEMBER 15 9AM TO NOON". On the right, it says "Clean Water Starts With You" in green, followed by "Saturday, September 15th 9:00AM-Noon" and "1 Twin Pines Lane, Belmont CA".

Second Quarter 2018 Sales Tax Results

The City's revenue consultant, HdL, has provided preliminary sales tax results for the second quarter of 2018. Specifically, California statewide sales tax receipts appear considerably lower than last year due to technological issues with the changeover to new reporting software. California Department of Tax and Fee Administration is working to resolve the issues in the coming months and expects that agencies will soon begin to see the missing revenue in future remittances. Despite these issues at the statewide level, receipts for the City of Belmont were up 18.3% for the reporting period.

City Hall Lobby ADA Compliance/Customer Service Remodel Progress

There is a short pause between phases of this ADA compliance project. The Lobby is open for access (PD Lobby is open to the public). Lighting was installed in the Permit Center area this week and crews were on site installing the 3rd floor security access system. Painting will pick back up next week as painters finish up a few remaining areas on the 2nd and 3rd floors of City Hall. ADA compliance upgrades have been completed in the Lobby bathrooms and fire alarms should be installed soon so that those restrooms can be opened for public access.

Construction crews will be returning in mid-September to commence Phase II (Furniture and Finishes), as Permit Center workstations and furniture delivery is scheduled for September 21st. The Permit Center continues to be temporarily relocated to the 3rd Floor of City Hall until the completion of Phase II. Information regarding interim Permit Center accommodations are available on the City's website.

14th Annual

**SAN MATEO COUNTY
DISASTER PREPAREDNESS DAY**

Saturday, September 22, 2018

Re-Launched Household Battery and Cell Phone Collection Program

Batteries power our daily lives, but eventually reach their end of life and must be disposed of properly. *It is illegal to put batteries in the trash.*

Single-Family Households

Starting September 3, 2018, residents in single-family homes in the RethinkWaste service area can place household batteries (i.e. rechargeable, alkaline, button) and cell phones in a sealed clear zip-top bag and place on top of your black garbage cart on your regular collection day. Please tape lithium-ion batteries and wrap cell phones in paper before placing in the zip-top bag.

Multi-Family Residents

Check to see if your building has a designated area for battery and cell phone collection. If you don't see one in a central location, contact your Property Manager to request a free [Recology San Mateo County Collection Bucket](#).

Property Managers

Establish a centrally located collection container at your property – a lobby, multi-use room, mail room or clubhouse – for residents to place their bagged batteries and cell phones, in a collection bucket provided at no charge by Recology San Mateo County. When you're ready to schedule a collection, place the bucket in the mutually agreed upon collection area and call Recology San Mateo County to schedule your free pickup.

Drop Off

Many local retailers also accept old batteries and cell phones for proper disposal. Please visit [RecycleStuff.org](#) for drop-off locations.

You may also drop off batteries and cell phones, along with other electronics, at the Shoreway Environmental Center at 333 Shoreway Road in San Carlos. More information at the end of this document and at this [LINK](#).

Parks and Recreation Updates

Movies in the Park!

Don't forget tonight's Movie in the Park: A Wrinkle in Time. The movie starts at 7pm, but crafts, games, and raffle prizes will be starting at 5:45pm. Next week's Throwback Thursday Movie will be Ferris Bueller's Day Off. Bring chairs and blankets and enjoy a night under the stars at the Twin Pines Meadow.

Belmont Parks & Recreation Presents

MOVIES IN THE PARK

FREE! FREE!

Fri., Sept 7 Fri., Sept 14 Throwback Thursday Sept 20

TWIN PINES PARK, MEADOW STAGE | BRING CHAIRS & BLANKETS
RAFFLE: 6:50PM | MOVIE: SUNSET

Crafts & Games lead by City staff start at 5:45pm!

Twin Pines Master Plan

There's still time to share your ideas for the Twin Pines Park Master Plan! Go to www.belmont.gov/tpmpsurvey and participate in the brief online survey. You'll see our community input pop up tent at the Water Dog Run and Save the Music! Twin Pines is Belmont's jewel. Help us polish it! More information is available at www.Belmont.gov/twinpinesmp.

O'Donnell Park Playground Design Approved

The O'Donnell Park playgrounds have been in place since the mid-1990's, and they're due for an upgrade. The Parks and Recreation Department has worked closely with the Homeview and Sterling Downs communities to come up with an awesome design for new playground equipment for this neighborhood park. Check out the video to see the final design approved by City Council: [YouTube](#) What's next? Once plans and specs are completed, the City will be seeking bids from contractors.

[Back to Top](#)

Teen Zone

Teen Zone was busy this week. Students played games, enjoyed healthy snacks, and learned to make Yogurt Parfaits. Stop by the free Teen Zone at Barrett Community Center! Middle schoolers from all nearby middle schools or home schools are welcome.

Parks

Seasonal brush was cleared from Upper Lake Road between Hallmark Drive and St. James Road. grasses and invasive broom were cut back from the path and drainage ditch. In addition, the drainage ditch was cleared of leaves, dirt and debris. Staff utilized both handheld weed trimmers ("weed whips") and walk behind brush cutters to remove the seasonal grasses. The walk behind brush cutter- also known as a "brush hog" allows for large scale cutting of brush in an efficient manner.

At O'Donnell Park, several irrigation repairs were made. While onsite, staff also removed weeds and brush from the landscape beds. Landscape maintenance was also conducted at the Sports Complex. In addition, the stairs at the Conference Center received a fresh coat of paint.

General maintenance and cleanup was conducted along Water Dog Lake Road. Part of the maintenance included the installation of a waste receptacle and signage regarding proper disposal of dog waste.

Twin Pines Senior & Community Center

September Birthdays Lunch

David, friend of one of the regular Lunch Program attendees, volunteered to play beautiful concert piano pieces on Thursday's Birthday Lunch. The Twin Pines Lunch Program celebrates lunch attendees whose birthday falls on that particular month, and if we're lucky volunteer David will provide beautiful music to go with it! The Birthday Lunches always take place on the 2nd Thursdays of the Month. This September we celebrated Ellen, a dedicated Lunch Program volunteer, and Frances, who happens to be turning 94 years young this Tuesday! #lifegoals

Part Time Recreation Specialist Job Opening

The Parks & Rec Department is looking for a new part time Rec Specialist. You must be a high school grad (or equivalent) and be an enthusiastic, creative leader. See attached flyer for details.

WE'RE HIRING!

Are you a creative and enthusiastic person who thrives in a collaborative, positive learning environment? Do you want to gain valuable work experience and have fun? If so, consider becoming a Recreation Specialist for the City of Belmont!

The City provides structured recreational activities and educational opportunities for up to 30 middle school students during the school year at the Barrett Community Center - Teen Zone Room, monthly special events, and summer camp. The work schedule will vary depending on availability, but the position works mostly Mondays only from 2:45 - 5:15pm during the school year.

Apply today:

www.calopps.org > Belmont > Recreation Specialist

STREETS DIVISION ACTIVITY

In an effort to continue repairs to Belmont streets, the Streets Division dugout over 50 tons of failed asphalt on Carlmont Drive. 16 tons of base rock was installed and compacted to provide a sturdy base for new asphalt. 38 tons of Asphaltic Concrete was paved and compacted to provide a smooth and trouble- free roadway for many years to come.

STORM AND SEWER DIVISION ACTIVITY

The Sewer Division has been busy jetting (cleaning) sewer lines as routine maintenance on streets and easements in basins 8 and 10 (as shown in map below).

The Storm Division has been performing storm drain inspections in basins 5 and 6 (as shown in map below), in accordance with MRP (Municipal Regional Stormwater Permit) pre-winter maintenance.

WEBSITE NEWS

Street Pavement Website

In an effort to improve information about the City's pavement program and projects in the coming years, the City is launching the new Belmont Pavement Website. This site will be a location where you'll be able get information about all things related to pavement in one convenient location. We look forward to keeping the community informed about our work as we improve the City's aging infrastructure!

A few FAQs found on the site are:

Q: How does the City determine which streets to schedule for preventive maintenance work?

A: A computerized pavement management system is used to store the condition data of all roads. This system, known as StreetSaver, was developed by the Metropolitan Transportation Commission (MTC) and is helping Bay Area cities and counties. The system utilizes a computer model, which predicts the proper time to perform preventive maintenance work. To keep the system up to date, the City periodically surveys the condition of the City streets to determine the condition of the pavement and updates the condition data of all roads which are maintained in the model on regular bases. StreetSaver utilizes a model, which predicts the proper time to perform preventive maintenance work. The most cost-effective pavement maintenance application is selected based on the amount of funding available each year and street need.

Q: When will my street be resurfaced? Is my road going to be paved soon?

A: In order to maximize the dollars available to preserve its entire network of pavement in the best condition, the City relies on its pavement management system (StreetSaver) to preliminarily select candidate streets for further evaluation. Unfortunately, not all streets will be treated with the annual available funds. However, with the passage of Measure I, the City drafted a 5 year pavement program, which is the first part of the 30 year tax measure. This enabled us to evaluate all City streets. Streets not found on the initial draft list will be considered in the next cycle of the pavement program. Please note that maintenance of streets are tentatively scheduled in order to accommodate planning and design purposes, which may include utility coordination, inspection of drainage issues, addition of sidewalks, addition of bicycle and pedestrian pathways, etc.

More FAQs and information is found on the website here: www.belmont.gov/BelmontPavement

PROJECTS

2018 Slurry Seal Project – Measure I, CCN 2018-564

Construction began August 3rd. Major dig out, slurry, and striping work has been completed. A few utility lids within the project scope are in progress of being adjusted. The contractor may be working on some other minor items or repairs in anticipation of 2018 Slurry Project completion. Flaggers will be onsite to maintain through traffic.

The City sent out notifications to affected residents very early this summer about the construction work. In addition, the contractor has sent out door hangers as the scheduled work approaches. No parking signs are also posted 24-48 hours prior to the work and should be the most up to date. Public Works does post notifications on our project page and social media outlets as soon as we can, especially if there are any delays or changes.

We kindly remind residents, neighbors, and all passer byers to drive around any wet slurry, wet striping, and new utility lid adjustments before it has a chance to cure to avoid diminishing the value of the slurry seal and tax dollar investment.

Please contact the Belmont Police Department at 650-595-7400 immediately if any vehicles are found or driving on the wet slurry.

For any new slurry that needs repair or other concerns, please contact the Public Works Department at 650-595-7425.

More information and updates can be found on the Project webpage here:

<https://www.belmont.gov/Home/Components/FacilityDirectory/FacilityDirectory/392/696>

Further information on the 2018 Slurry Project and City's Street Improvement Program can be found here:

PROGRAM CHANGE

Household Battery and Cell Phone Collection Program

Who?

All single-family households in the RethinkWaste service area*

Why?

To protect the safety of our workers, recycling facilities and the environment. When batteries enter the recycling stream, they can get crushed by compactors and start fires. Batteries contain hazardous materials that can leach into the environment.

How?

Place used batteries and cell phones into the zip-top bag and when nearly full, place bag ON TOP OF YOUR BLACK CART on collection day. For safety, place tape over both ends of each lithium battery and wrap cell phones in paper.

Starts Sept. 3, 2018

New

If you need additional bags, you may use ANY clear zip-top bag OR you can find orange bag pick up locations at: RethinkWaste.org/batteries

Old

What's Accepted

Yes

All household-type batteries including AA, AAA, C, D, 9-volt and button batteries

No

Lead acid and automotive batteries
