

Meeting Date: November 26, 2019

## STAFF REPORT

**Agency:** City of Belmont

**Staff Contact:** Alberto Espinoza, Public Works, 650-595-7465, aespinoza@belmont.gov

**Agenda Title:** Revise Maximum Rates for Collection Services for Calendar Year 2020

**Agenda Action:** Resolution

---

### **Recommendation**

Adopt a resolution stating the City of Belmont's approval to revise the maximum rates that may be charged for solid waste, recyclable materials, and organic materials collection services effective January 1, 2020.

### **Background**

The franchise agreement for solid waste, recyclable materials, and organic materials collection services between the City of Belmont and Recology San Mateo County (Recology) provides for an annual review of the maximum rates that Recology may charge Belmont residential and commercial customers for regular and unscheduled services. Each year, the City adopts solid waste rates that does not exceed Recology's maximum rates. On July 31, 2019, Recology provided the City their 2020 rate application (Attachment B) and detailed worksheet outlining their calculation of the maximum rates. In summary, the proposed rate adjustment provided by Recology for the regular scheduled residential and commercial services is an increase of 6.52% over the current rates. The proposed rate adjustment for unscheduled services is an increase of 2.44% over the current rates.

At the September 24, 2019 Council meeting, the City's solid waste consultant, HDR Engineering, Inc. (HDR), presented Recology's proposed solid waste, recyclable materials, and organic materials collection rates effective January 1, 2020. HDR confirmed that the rates proposed by Recology were calculated in accordance with the franchise agreement and associated amendments. HDR prepared the attached report (Attachment C), which provides confirmation that the rate adjustment application and the accompanying maximum rate schedules submitted by Recology meet the requirements of the franchise agreement. The City Council adopted resolution number 2019-097 and directed staff to give notice to the public of the November 26, 2019 public hearing.

### **Proposition 218**

The City is committed to promoting public participation in City activities. Toward this end, it is the City's practice to conduct notice and protest hearing proceedings with respect to solid waste maximum rates in the manner set forth in Article XIID, Section 6(a) of the California Constitution, and Section 53755 of the Government Code. That process requires that a notice be mailed to solid waste customers (Attachment D) not less than forty-five days prior to any public hearing affecting any rate.

Belmont customers and property owners have the right to submit written protests against the proposed charges and may do so by mail or in person to the City Clerk no later than the conclusion of the Public Hearing. If written protests against the charges are presented by owners of a majority of the affected parcels, the City Council may not impose the charges.

**Analysis**

Recology’s proposed maximum rate adjustment for 2020 is comprised of the Consumer Price Index (CPI) cost adjustment of 5.27% and the Transitional Rate Stabilization Fee (TRSF) of 1.25% to the regular scheduled service for a total maximum rate adjustment of 6.52%. Table 1 is a summary of Recology’s rate index calculation. In simplified terms, the franchise agreement allows Recology to annually take the existing maximum rate that is in effect and multiply each rate by an “adjustment percentage”. The adjustment percentage is essentially a cost index. Each year, the cost index is calculated by adding together the cost components such as wage component, fuel component, general expense component, disposal costs component, performance-based component, and agency payments component, and dividing those components by the preceding year’s cost components. The TRSF is a fee designed to incrementally recover the gap of the true cost of service and to prepare for the projected 2021 base rates. The maximum rate adjustment of 6.52% for regular scheduled residential service is as follows.

CPI Cost Adjustment = 5.27%  
 Transitional Rate Stabilization Fee = 1.25%  
 Total Rate Index Adjustment = 6.52%

<b>Table 1 Overview of Recology’s Rate Index Calculation</b>					
<b>Cost Component</b>	<b>Cost Component Dollars (\$)</b>	<b>2009 CPI Index</b>	<b>2019 CPI Index</b>	<b>2019 Cost Index</b>	<b>2018 Cost Index</b>
Wage Component	\$1,380,122	110.9	135.4	\$1,685,018	\$1,632,750

			<b>Maximum Rates to be Multiplied by:</b>	<b>6.52%</b>	

- (i) The Contractor’s projected costs for April 1 of that calendar year through March 31 of the following year plus
- (ii) The Contractors’ actual costs April 1 of the year prior through March 31 of the calendar year minus
- (iii) The contractor’s previous projection.

**Residential Rates**

Recology charges a flat monthly rate per cart size. Residential service is comprised of four different cart sizes which range from 20 gallons to 96 gallons. In reviewing the current residential rates, the City and Recology agreed in 2018 that the maximum rate for the 20-gallon service did not adequately reflect the true cost of service. Since the initial adoption of the rates was based on a progressive rate structure to encourage recycling, the cost of service for a 20-gallon cart provided a discount in relation to actual cost of service. Recognizing the need to bring the 20-gallon cart size up to cost-based levels, in 2018 the City agreed to included specific rate adjustments for the 20-gallon cart. The City adopted a series of cost of service adjustments to the 20-gallon cart over a three-year rate setting period (2019 - 2021). These adjustments, by year, are as follows:

- Year 2019 - \$3.00/month (cumulative adjustment of \$3.00/month from current rate levels)
- Year 2020 - \$2.00/month (cumulative adjustment of \$5.00/month from current rate levels)
- Year 2021 - \$3.00/month (cumulative adjustment of \$8.00/month from current rate levels)

For calendar year 2020, the 20-gallon cart includes the 6.52% maximum rate adjustment plus a \$5.00 per month cumulative cost of service adjustment. Table 2 shows the current monthly residential rates and the proposed 2020 maximum residential regular scheduled solid wastes rates.

<b>Table 1</b>					
<b>Summary of the Present and Proposed Residential Solid Waste Rates</b>					
<b>(Regularly Scheduled - \$/Month)</b>					
Schedule	Schedule Description	Present Monthly Rate	Proposed 2020 Rates	CPI \$/Month Change	RSF \$/Month Change
R20G	Residential Waste - 20 Gallons <sup>[1]</sup>	\$23.07	\$29.57	\$1.50	\$5.00
R32G	Residential Waste - 32 Gallons	\$36.47	\$38.85	\$2.38	
R64G	Residential Waste - 64 Gallons	\$71.80	\$76.48	\$4.68	
R96G	Residential Waste - 96 Gallons	\$107.70	\$114.72	\$7.02	

[1] The 2020 proposed 20-gallon cart includes the 6.52% adjustment plus a \$5.00 rate stabilization fee (RSF). (\$3.00 2019, \$2.00 2020, equals a total of \$5.00)

**Commercial Rates**

Commercial customers have similar service to residential customers, but they have the option to adjust the number of pickups per week. Attachment E (Table 3), is a summary of the present and calculated maximum commercial solid waste rates for 2020 by cart size. The maximum rate assumes a 6.52% increase from the present rates. Some minor rounding of the rates may occur for purposes of ease of administration.

Some commercial customers have larger bins which range in size from 1 yard to 6 yards. Commercial waste customers also have the option of different levels of service and can select the number of pick-ups per week. Attachment E (Table 4) is a summary of the present and calculated maximum commercial solid waste rates for 2020 by bin size. The maximum rate assumes a 6.52% increase from the present rates. Some minor rounding of the rates may occur for purposes of ease of administration.

**Other Scheduled Solid Waste Rates**

The schedule of charges for all services including commercial organics bins, carts, and other miscellaneous charges are itemized in Exhibit A of the attached Resolution.

**Unscheduled Services**

Recology also provides several services that are not considered “regularly scheduled” services. The maximum rate set forth in Attachment Q (see Exhibit A of the attached Resolution) is adjusted annually by multiplying the effective maximum rate by the CPI for the year immediately preceding the year of the calculation and dividing the result by the CPI for the year two years prior. For example, the adjustment calculated in 2019 (for rates to be effective 2020), each maximum rate is multiplied by the CPI for 2018 and divided by the CPI for 2017. The result is an overall rate increase of 2.44% for the unscheduled services rates.

**Alternatives**

1. Take no action
2. Adjust rates differently while meeting the revenue requirements in accordance with the Franchise Agreement

July 31, 2019

Mr. Thomas Fil  
Finance Director  
City of Belmont  
One Twin Pines Lane, Suite 320  
Belmont, CA 94002

Re: Rate Year 2020 Rate Application

Dear Mr. Fil:

Enclosed is our Rate Year 2020 Rate Application, Calculation of Fuel Cost per Gallon, Calculation of Actual Disposal Expense (April 2018 through March 2019), Calculation of Estimated Disposal Costs (April 2019 – March 2020), Performance Incentive/Disincentive schedule, Attachment R for 2020 and Attachment Q for 2020. Additionally, screen prints of the CPI index pages from the Bureau of Labor Statistics are also included.

In accordance with Article 11 of the Franchise Agreement for Recyclable Materials, Organic Materials and Solid Waste Collection Services, we applied the following methodology to our calculations:

- **Wage Component** – Multiplied the Wage Component of \$1,380,122 by the Employment Index for the 4<sup>th</sup> quarter of 2018 (135.4) and divided that by the Employment Index for the 4<sup>th</sup> quarter of 2009 (110.9). The calculated Wage Component for Rate Year 2020 is \$1,685,018.
- **Fuel Component** - Multiplied the Fuel Component of \$211,727 by the average price per gallon of fuel for the period April 2018 through March 2019 (\$3.32) and divided that by the average price used for the 2009 Fuel Component of \$3.45. The calculated Fuel Component for Rate Year 2020 is \$203,749.
- **General Expense Component** – Multiplied the General Expense Component of \$1,528,563 by 90% of the percentage change in the Consumer Price Index between 2009 (214.537) and 2018 (251.107). The calculated General Expense Component for Rate Year 2020 is \$1,763,066.

- **Disposal Cost Component** – The Disposal Component shall equal (i) Contractor’s reasonable good faith projection of Disposal Costs for the period from April 1 of that calendar year through March 31 of the following year (\$1,888,496), *plus* (ii) Contractor’s actual Disposal Costs for the period from April 1 of the year prior to the Calendar Year of the Cost Index through March 31 of the Calendar Year of the Cost Index (\$1,632,673), *minus* (iii) Contractor’s previous projection (used in the prior year’s Cost Index calculation) of Disposal Costs for the period described in clause (ii) (\$1,695,411). The calculation of projected disposal costs used in (i) assumed volumes delivered to the Designated Disposal Site using actual volumes delivered during the quarter April 1, 2019 through June 30, 2019, then duplicating those volumes for the next three quarters. The disposal rates are the anticipated rates for 2020 at the Designated Disposal Site. The total Disposal Component equals \$1,825,758 ( $\$1,888,496 + \$1,632,673 - \$1,695,411$ ).
- **Performance-Based Component** – Incentives and disincentives were reviewed by R3 Consulting Group and are included in the rate year 2020 compensation application. Incentives total \$2,606 and disincentives total \$ 1,609 for a combined incentive amount of \$997.

As described in the Amended and Restated Franchise Agreement, the TRSF Fee percentage of 1.25% applicable to gross revenue billed on all regular services is included in the Rate Year 2020 Rate Application calculations.

Based on the calculations described above and the TRSF Fee percentage, the revenue increase for Rate Year 2020 is 6.52%.

Additionally, as described in the Amended and Restated Franchise Agreement, the Attachment R rate for a residential 20 gallon cart of \$29.57 includes the \$ 5.00 TRSF fee.

If you have any questions, or need any additional information, please do not hesitate to call me at 650-598-8226.

Sincerely,

Michael Kelly  
General Manager  
Recology San Mateo County

SOLID WASTE COMPACTOR RATE PER YARD	121.27
-------------------------------------	--------

## ATTACHMENT Q UNSCHEDULED SERVICES

The following table specifies Maximum Allowable Rates for Unscheduled Services. These Maximum Rates shall be adjusted annually in accordance with Article 11.

Unscheduled Service Category	Reference	Cost	Description of Cost
Single-Family Dwelling Backyard Collection Service	Section 5.02.A	See table below	See table below
Distance Charge for MFD and Commercial Accounts More than 50 Feet From the Curb	Sections 5.02.B and 5.02.C	A – 10% of base monthly Rate B – 25% of base monthly Rate	A – 51 to 100 feet from Curbside B – 101 feet or more from Curbside
Extra Pick-up Cost for MFD and Commercial Customers	Section 5.02.B and 5.02.C	30% of the base monthly Rate for the size of Container Collected once per week	Per Collection event
Single-Family Return Trip Cost (i.e., request to provide Collection service on other than the regularly scheduled Collection day)	Section 5.02.A	\$17.56	Per Collection event
Additional Targeted Recyclable Materials or Organic Materials Cart Rental	Sections 5.03.A and 5.04.A	A-\$1.16 B-\$3.50	A-Monthly rental fee for Targeted Recycling Cart (any size) B- Monthly rental fee for Organics/Yard Waste Cart (any size)
Additional E-Scrap Pickup Trip	Section 5.05.B4	Varies by number of items	\$29.27 for each trip (up to five items) \$11.70 per item for each additional item on the same trip \$99.49 per item for large console TV's

## ATTACHMENT Q UNSCHEDULED SERVICES

Unscheduled Service Category	Reference	Cost	Description of Cost
Additional Confidential Document Destruction Service Event	Section 5.07	\$1,404.55	Per event
Litter Abatement and Collection Service	Section 5.09B	\$79.60 per hour with an eight (8) hour minimum per service person (includes truck)	Per event
Additional Compost Material Delivery	Section 5.11	A-\$146.30 B-\$292.62	A-one way delivery (compost left on site) B-two way delivery (Drop box left on site)
Fee for Service On-Call Bulky Item Collection Service	Section 5.12	\$95.46	Per Event
Additional Community Drop-Off Events	Section 5.13	\$23,877.38 Additional \$1.16 per household for post card announcement if requested by Agency	Per event targeting approximately 6,000 households. Does not include disposal.
Collection for Additional Agency-Sponsored and Non-Agency sponsored Large Events (other than the number of events specified in Attachment C)	Section 5.08	A – \$3,511.38 B – \$5,852.29 C – \$8,778.45	A – one-day events with a projected 2,500 or fewer attendees B – one (1) or two (2) day events less than 7,500 attendees per day, that does not qualify for Category A above C – one (1) or two (2) day events with a projected 7,501 to 10,000 attendees per day
Emergency Services	Section 7.08	\$146.30 per hour	Cost includes refuse collection vehicle and driver

## ATTACHMENT Q UNSCHEDULED SERVICES

Unscheduled Service Category	Reference	Cost	Description of Cost
Fee to Collect Contaminated Targeted Recyclable Materials or Organic Materials Container	Section 6.03.A and 8.02.F	25% of the base monthly Rate for the size of Container Collected once per week  <u>plus</u> \$17.56	Per Collection event
Key Service	Section 8.02.B	A – \$9.95 B – \$11.12	Monthly cost: A – Residential Customers B – Commercial Customers
Lock purchase fee (replacement at no additional cost)	Section 8.02.B	\$19.90	One-time per Account cost.
Overage Fee (unless Overage Bags purchased)	Section 8.02.G	100% of the base monthly Rate	Per Collection event
Overage Bags Cost (includes Collection)	Section 8.02.G	\$9.36	Per bag
Container Cleaning Fee	Section 8.05.D	A – \$58.53 B – \$99.49	A – per Cart B – per Bin or Drop-Box
Dirty Cart Replacement Cost	Section 8.05.D	A – \$76.09 B – \$87.79 C – \$99.49	A – per 32 gallon Cart B – per 64 gallon Cart C – per 96 gallon Cart

DRAFT REPORT

**City of Belmont**  
**Review of the 2020 Solid Waste Rates**  
September 2019

September 9, 2019

Mr. Afshin Oskoui  
Public Works Director  
City of Belmont  
One Twin Pines Lane, Suite 385  
Belmont, California 94002

**Subject: Review of the City of Belmont's 2020 Solid Waste Rates**

Dear Mr. Oskoui:

HDR Engineering, Inc. (HDR) was retained by the City of Belmont (City) to provide professional and technical rate services as they relate to the City's solid waste utility. HDR's draft report provides a summary of HDR's findings, conclusions, and recommendations on this matter.

The City is a member of the South Bayside Waste Management Authority (SBWMA) and has a franchise agreement with Recology of San Mateo County (Recology) for solid waste collection services, including the collection of recycling and organic materials, through December 31, 2020. Through the franchise agreement, the annual compensation for Recology's services is contractually determined. At the same time, the franchise agreement calls for the City to establish their own solid waste retail rates, but not at a level which exceeds the Contractor's "Maximum Rates for Regularly Scheduled Services". Recology has provided to the City their calculation of the maximum rates for regularly scheduled service and HDR has, within this report, provided a limited review and audit of those calculations. In addition, the City has recently finalized the contract to extend the franchise agreement with Recology through 2035. A component of the 2020 maximum rates reflects negotiations and agreement to transition rates to 2021 levels as outlined in the final negotiated agreement.

The main objective of this report is to determine the maximum rates for the City's regularly scheduled and unscheduled solid waste services. This report and HDR's technical review were developed utilizing the City's and Recology's accounting, operating, and management records. HDR has relied upon this information to conduct our limited review, which provides the basis for our findings, conclusions and recommendations.

We appreciate the assistance provided by City staff in the development of this study. More importantly, we appreciate working with City of Belmont's staff, management, and City Council on this project.

Sincerely yours,  
HDR Engineering, Inc.

Shawn Koorn  
Associate Vice President

## Introduction

The City of Belmont (City) is a member of the South Bayside Waste Management Authority (SBWMA). In 2010, the City signed a franchise agreement with Recology of San Mateo County (Recology) for solid waste collection services, including the collection of recycling and organic materials. Through the franchise agreement, the annual compensation for Recology’s collection and recycling services is contractually determined. At the same time, the franchise agreement calls for the City to establish and adopt their own solid waste rates, but not at a level which exceeds the Contractor’s “Maximum Rates for Regularly Scheduled or Unscheduled Services”. Ultimately, Recology bills the City’s customers for the solid waste services at the rates established by the City of Belmont City Council.

As a part of the overall rate setting process, Recology’s data and information is reviewed by an outside party prior to its use within the calculation of the City’s maximum rates. Once that data and information is confirmed, Recology calculates the “maximum rates for regularly scheduled and unscheduled services” and provides a copy of those calculations to the City for their review and acceptance. HDR has provided the review for rate years 2013 through 2019 and now has been requested by the City to provide a review of Recology’s solid waste rate calculations for year 2020.

The franchise agreement between the parties, along with the related amendments to the original agreement, contains specific language and exhibits related to the development of the maximum rates for a given year for both regularly scheduled and unscheduled services. This study has reviewed the applicable portions of the franchise agreement as they pertain to the 2020 rate year. From this basic understanding of the requirements for establishing the rates in the previous year, HDR reviewed Recology’s submittal for the 2020 rate year. This study discusses the review undertaken by HDR for the 2020 rate year, along with our findings, conclusions, and recommendations.

The term of the Recology franchise agreement (i.e., contract) ends on December 31, 2020<sup>1</sup>. The City recently finalized the contract for an extension of the franchise agreement with Recology through Rate Year 2035. A part of the negotiations for the extension of the franchise agreement included a rate transition to 2021 rate levels.

## Limitations of HDR’s Review

HDR has provided a limited review of Recology’s maximum rate calculations for the 2020 rate year. As noted above, the data and information used by Recology to calculate the City’s maximum rates were independently reviewed by another outside firm. Given that outside review of Recology’s data and information, HDR has assumed that the data and information input into Recology’s rate calculations are reasonable and appropriate. HDR did cross-check and verify the

---

<sup>1</sup> Article 3.02 of the City/Recology Franchise Agreement, p. 6.

inputs into Recology’s model from the database of previously reviewed basic input data and information.

Within HDR’s review, four key items were being reviewed and verified. These included:

- A review of Recology’s methodology for compliance with our understanding of the required methodology specific for the 2020 rate year.
- A review of the data inputs and information used within the methodology to confirm use of the appropriate costs and adjustment factors which complies with the methodology for regularly scheduled services for the 2020 rate year.
- A review of the data inputs and methodology to confirm use of adjustment factors which complies with the methodology for unscheduled services for the 2020 rate year.
- Confirmation/verification of the calculations (formulas) within the methodology as they apply to the 2019 rate year.

## Overview of the Franchise Agreement and Amendments

On June 15, 2010, the City of Belmont entered into a franchise agreement with Recology San Mateo County (Recology) to provide the Belmont community a comprehensive set of high-quality waste collection, waste reduction, recycling and composting programs. In order to maximize the quality of services and waste-diversion potential, the City granted to Recology an exclusive right to provide these services within the City. In order to balance that exclusive right to provide these solid waste services against the costs/rates associated with that program, the parties needed to develop an approach or methodology that fairly compensated (and limited) the charges that Recology could charge the City’s customers. To address this requirement, the franchise agreement contains specific language and a methodology, within Article 11 of the franchise agreement, for annually establishing the maximum rates for the up-coming calendar year for both regularly scheduled and unscheduled services.

The Franchise Agreement provides for an orderly process and approach to establish rates for the City and compensation for Recology. The review being undertaken by the City and HDR is a part of that orderly process, and the City is performing its due diligence to verify and confirm that the maximum rates calculated by Recology are in accordance with the franchise agreement.

**The Franchise Agreement provides for an orderly process and approach to establish rates for the City and compensation for Recology.**

Article 11, The Contractor’s Compensation, Pass-Through Costs and Rates determines the annual compensation for Recology’s collection and recycling services. This calculation of annual compensation sets the Contractor’s “Maximum Rates for Regularly Scheduled Services” known as Attachment R and “Unscheduled Services” known as Attachment Q. Attachment R is established in 11.02 of Article 11, Annual Adjustment of Maximum Rates for Schedule Services. Attachment Q is established in 11.03 of Article 11, Annual Adjustment of Maximum Rates for Unscheduled Services.

## Regularly Scheduled Service (Attachment R) - Review of Recology's Calculated Maximum

On July 31, 2019, Recology provided to the City a letter and the detailed worksheet outlining their calculation of the rate index for rate period 2020. The City retained HDR Engineering, Inc. (HDR) to provide the same rate review for the proposed 2020 rates as they performed in 2013 through 2019. HDR was retained to confirm that the overall methodology is in conformance with the Franchise Agreement. In addition, HDR also verified or confirmed that the proper data appeared to be used within the analysis, and that the mathematical calculations are correct. In providing this review, HDR attempted to independently calculate the rate index, and in those cases where appropriate, independently confirm certain data inputs (e.g., consumer price index (CPI)).

The major components of the costing methodology include the following:

- **Cost Indexing** – Article 11 of the franchise agreement provides the framework or methodology for the determination of the maximum rate for the upcoming year. In very simple terms, the agreement calls for Recology to annually take the existing maximum rate that is in effect and multiply each rate by an “adjustment percentage”. The adjustment percentage is essentially a cost index.

The updated calculation provided by Recology indicated the need for a maximum adjustment of a 5.27% increase from the 2019 regularly scheduled rates. For 2020, the rate index is composed of two cost elements; the CPI cost adjustment and the amended and restated franchise agreement which defines a two-year Transitional Rate Stabilization Fee (TRSF) of 1.25% to prepare for the new 2021 extended contract. The total rate index adjustment:

CPI Cost Adjustment	5.27%
Transitional Rate Stabilization Fee	<u>1.25%</u>
Total Rate Index Adjustment	6.52%

Based upon HDR's detailed review of Recology's rate index calculation for 2020 rate year, HDR concluded that the rate index used the appropriate data and information for the time period and the calculations within the methodology were correct. As a result of our detailed review, HDR concluded that based upon the existing Franchise Agreement, the City's maximum solid waste rates (overall revenues) for 2020 should be increased by 6.52%. Provided below is a more detailed discussion of each of the elements of the calculation of the rate index and the basis for HDR's summary conclusion. In developing the calculated maximum rates, Recology provided a schedule of the various solid waste rates. HDR reviewed the calculated maximum rates to confirm that they use the appropriate multiplier.

## Residential Regularly Scheduled Solid Waste Rates

The present residential rate is a flat monthly rate per cart. Residential customers are offered different cart sizes (20, 32, 64, and 96 gallons) for service. The current residential rates in comparison to the SBWMA study cost information, over the past several years, has shown that the 20-gallon cart has not been fully recovering the cost of service. The recent franchise agreement negotiations for the extension of the agreement from 2020 to 2035, indicated a need

to adjust overall rates to align the projected 2020 revenues with the projected 2020 expenses. The City also needed to better align the residential 20-gallon cart rates with its costs. Given that, the City imposed a transition of rates through cost of service adjustments to the 20-gallon cart over a three-year rate setting period (2019 -2021). The amended and restated franchise agreement outlined specific adjustments for the 20-gallon level of service. These adjustments, by year, are as follows:

- Previous year 2019 - \$3.00/month (Cumulative adjustment of \$3.00/month from current rate levels)
- Current year 2020 – An additional \$2.00/month (Cumulative adjustment of \$5.00/month from current rate levels)
- Next year 2021 – An additional \$3.00/month (Cumulative adjustment of \$8.00/month from current rate levels)

The above adjustments are in addition to any other rate adjustments (i.e., CPI increases) required for that rate year.

For the 2020 rates, with the exception of the residential 20-gallon RSF adjustment, it is recommended that the rates for all cart sizes be equally adjusted by 6.52%.

Presented below in Table ES-1 are the present monthly residential rate and the proposed residential rates in 2020. The rates are designed to provide an overall 6.52% revenue adjustment compared to the present monthly residential rate.

Table ES - 1 Summary of the Present and Proposed Residential Solid Waste Rates (Regularly Scheduled - \$/Month)					
Schedule	Schedule Description	Present Monthly Rate	Proposed 2020 Rates	CPI \$/Month Change	RSF \$/Month Change
R20G	Residential Waste - 20 Gallons <sup>[1]</sup>	\$23.07	\$29.57	\$1.50	\$5.00
R32G	Residential Waste - 32 Gallons	\$36.47	\$38.85	\$2.38	
R64G	Residential Waste - 64 Gallons	\$71.80	\$76.48	\$4.68	
R96G	Residential Waste - 96 Gallons	\$107.70	\$114.72	\$7.02	

[1] The 2020 proposed 20-gallon cart includes the 6.52% adjustment plus a \$5.00 rate stabilization fee (RSF). (\$3.00 2019, \$2.00 2020, equals a total of \$5.00)

## Other Regularly Scheduled Solid Waste Rates

In addition to the above residential rates for regularly scheduled service, the City and Recology have a number of other rate schedules for regularly scheduled solid waste services. These include the following:

- Commercial Waste Carts (20 gallons to 96 gallons)
- Commercial Waste Bins (1 yard to 6 yards; 1 day to 7 days per week pickup)
- Commercial Organics (1 yard to 6 yards; 1 day to 7 days per week pickup)
- Commercial Organics Carts (20 gallons to 96 gallons; 1 day to 7 days per week pickup)
- Commercial Waste 3 Yard Compactor
- Solid Waste Compactor (per yard)

Each of these commercial rate schedules were adjusted by the overall 6.52% rate increase. A more detailed discussion of these other regularly scheduled services can be found in Section 4 of the report and also within the Technical Appendices as Attachment R rate schedules.

## Unscheduled Service (Attachment Q) - Review of Recology's Calculated Maximum

In addition to the regularly scheduled rates, there are also rates for “unscheduled” services. The rates for unscheduled services are contained in Attachment Q of the Franchise Agreement and are annually updated in accordance with the Franchise Agreement. Attachment Q is established in 11.03 of Article 11, Annual Adjustment of Maximum Rates for Unscheduled Services.

The Maximum Rate set forth in Attachment Q is adjusted annually by multiplying the then effective Maximum Rate by the Consumer Price Index (CPI) for the year immediately preceding the year of the calculation and dividing the result by the Consumer Price index for the year two years prior. For example, the adjustment calculated in 2019 (for rates to be effective 2020), each Maximum Rate is multiplied by the CPI for 2018 and divided by the CPI for 2017. This resulted in an overall rate increase of 2.44% for Attachment Q rates effective in 2020 for the unscheduled services.

A more detailed discussion of these unscheduled services can be found in Section 4 of the report and also within the Technical Appendices as Attachment Q rate schedules.

## Summary Conclusions and Recommendations

Based upon the limited review undertaken, it was the conclusion of HDR that the maximum rates, as calculated by Recology, were in conformance with the City's Franchise Agreement. In reaching this conclusion, HDR has relied upon the data and information as supplied by the City and Recology. Given that conclusion, HDR would recommend that the City revise the residential rates based on the proposed rates provided in Table ES-1 and for commercial customers adopt the maximum rates for scheduled services (Attachment R). For both residential and commercial customer groups, the implementation of these rates will result in an overall increase in solid waste revenues of 6.52%. In addition, a \$5.00/per month rate stabilization fee has been added to the residential 20-gallon cart size to bring the service to align the service to cost and to spread

the anticipated 2020 rate adjustment over a three-year period. Finally, the unscheduled services (Attachment Q) as calculated by Recology and as reviewed within this report should also be adopted for 2020 based on the 2.44% CPI increase.

## **City Council Review**

On September 24, 2019, HDR will present to the City of Belmont City Council the proposed 2020 rates for both the scheduled services, Schedule R, and unscheduled services, Schedule Q.

## **Summary of the Review of Solid Waste Rates**

This completes the review and analysis for the City's solid waste rates. A full and complete discussion of the review of Recology's solid waste rates can be found in following sections of this report.

# 1. Introduction and Overview of the Report

## 1.1 Introduction

The City of Belmont (City) is a member of the South Bayside Waste Management Authority (SBWMA). In 2010, the City signed a franchise agreement with Recology of San Mateo County (Recology) for solid waste collection services, including the collection of recycling and organic materials. Through the franchise agreement, the annual compensation for Recology's collection and recycling services is contractually determined. At the same time, the franchise agreement calls for the City to establish and adopt their own solid waste rates, but not at a level which exceeds the Contractor's "Maximum Rates for Regularly Scheduled and Unscheduled Services". Ultimately, Recology bills the City's customers for the solid waste services at the rates established by the City of Belmont City Council.

The current franchise agreement has a contract term with Recology until midnight of December 31, 2020. Given the potential expiration of the current franchise agreement, the City and Recology recently negotiated a new contract to extend Recology's Franchise Agreement for a 15-year term through rate year 2035. The focus of this report is the development and review of the proposed 2020 solid waste rates which are still under the current franchise agreement (contract).

As a part of the overall rate setting process, Recology's data and information is reviewed by an outside party prior to its use within the calculation of the City's maximum rates. Once that data and information is confirmed, Recology calculates the "maximum rates for regularly scheduled and unscheduled services" and provides a copy of those calculations to the City for their review and acceptance. HDR Engineering, Inc. (HDR) has provided professional and technical rate assistance to the City in the past by reviewing Recology's calculated "maximum rates" for the City's 2013 through 2019 solid waste rates. The City has again requested that HDR review Recology's calculations for rate year 2020 as they pertain to the City's solid waste retail rates.

The franchise agreement between the parties, along with the related amendments to the original agreement, contains specific language and exhibits related to the development of the maximum rates for a given year. This study has reviewed the applicable portions of the franchise agreement and related amendments as they pertain to the 2020 rate year. In addition to this review, as a part of the recent negotiated extension to the franchise agreement, the parties agreed to a rate stabilization fee adjustment to be included in the residential 20-gallon cart size for 2019, 2020, and 2021. This has been included in the Attachment R schedules in addition to the CPI adjustments. From this foundational understanding of the requirements for establishing the rates in the previous year, HDR reviewed Recology's submittal to the City for the 2020 rate year. This study discusses the review undertaken by HDR for the 2020 rate year, along with our findings, conclusions and recommendations.

## 1.2 Limitations of HDR's Review

It is important to understand that HDR has provided a limited review of Recology's maximum rate calculations for the 2020 rate year. As noted above, the data and information used by Recology to calculate the City's maximum rates were reviewed by another outside firm. HDR did not provide a review of this basic input data as a part of this study. Therefore, HDR has assumed that the data and information input into Recology's rate calculations are reasonable and appropriate. Having said that, HDR did a limited cross-check to verify the inputs into Recology's model, from the database of previously reviewed basic input data and information.

Within HDR's review, the three key items reviewed were the overall methodology, compliance to the agreed upon methodology, and verification of the data inputs. First, the overall methodology is generally well-laid out within the franchise agreement and related amendments. Given that, HDR reviewed Recology's methodology for compliance with our understanding of the required methodology for the 2020 rate year. At the same time, HDR also reviewed the data inputs and information used within the methodology as applied to the 2020 rate year. While the data and information was previously reviewed, the selection and use of the appropriate costs and adjustment factors must comply with the methodology. Finally, HDR confirmed/verified the calculations (formulas) used within the methodology as applied to the 2020 rate year were accurate. As a part of HDR's review, these three aspects of Recology's rate filing were reviewed and verified.

## 1.3 Organization of the Report

This report is organized in a manner that reflects the general approach used by HDR to review Recology's maximum rates for scheduled and unscheduled services. The next section of this report provides a brief overview of the relevant portions of the franchise agreement and the amendments. Section 3 then provides a discussion and overview of the technical review undertaken by HDR of the Recology rate calculations. From that review, HDR was then able to review and verify the proposed maximum rates for scheduled and unscheduled services. The proposed maximum rates are discussed and shown in Section 4. Finally, Section 5 provides a summary of HDR's findings, conclusions and recommendations from this study.

## 2. Overview of the Franchise Agreement and Amendments

---

### 2.1 Introduction

An important starting point for reviewing the City’s solid waste rates is to gain an understanding of the existing franchise agreements and the two amendments to that agreement. This section of the report is intended to provide a brief overview of the relevant portions of the franchise agreement; amendments and the settlement agreement to help the reader better understand the basis for this review of the rates.

The review and discussion contained herein is not intended to be comprehensive in nature, nor provide any legal interpretation or opinion regarding the relevant portions of this agreement as it relates to this study.

### 2.2 Overview of the Franchise Agreement and Amendments

The City of Belmont (City) is a member of the South Bayside Waste Management Authority (SBWMA). A franchise agreement with Recology of San Mateo County (Recology) for solid waste collection services, including the collection of recycling and organic materials, was signed in 2010. Through the franchise agreement, the annual compensation for Recology’s collection and recycling services is contractually determined. The franchise agreement calls for the City to establish and adopt their own solid waste rates, but not at a level which exceeds the Contractor’s “Maximum Rates for Regularly Scheduled Services” known as Attachment R and “Maximum Rates for Unscheduled Services”, known as Attachment Q. The franchise agreement between the parties, along with the related amendments to the original agreement, contains specific language and exhibits related to the development of the maximum rates for a given year for both Attachment R and Q.

The Franchise Agreement provides for an orderly process and approach to establish rates for the City and compensation for Recology. The review being undertaken by the City and HDR is a part of that orderly process, and the City is performing its due diligence to verify and confirm that the maximum rates calculated by Recology are in accordance with the franchise agreement for the 2020 rate year.

Article 11, The Contractor’s Compensation, Pass-Through Costs and Rates determines the annual compensation for Recology’s collection and recycling services. This calculation of annual compensation sets the Contractor’s “Maximum Rates for Regularly Scheduled Services” known as Attachment R and “Unscheduled Services” known as Attachment Q. Attachment R is established in 11.02 of Article 11, Annual Adjustment of Maximum Rates for Schedule Services. Attachment Q is established in 11.03 of Article 11,

**... and the City is performing its due diligence to verify and confirm that the maximum rates calculated by Recology are in accordance with the franchise agreement for the 2020 rate year.**

Annual Adjustment of Maximum Rates for Unscheduled Services.

### 2.3 Regularly Scheduled Service (Attachment R)

Article 11 of the Franchise Agreement provides the framework or methodology for the determination of the maximum rate for the upcoming year. In very simple terms, the agreement calls for Recology to annually take the existing maximum rate that is in effect and multiply each rate by an “adjustment percentage”. The adjustment percentage is essentially a cost index. More specifically, the franchise agreement notes the following:

*“ . . . the Adjustment Percentage used to calculate the Maximum Rates that will be effective in Calendar Year 2013 shall be calculated during 2012 by dividing the Cost Index for 2012 (calculated during 2012) by the Cost Index for 2011 (calculated during 2011).”<sup>2</sup>*

The franchise agreement provides the cost index for the various components. The cost index is stated in total dollars. For example, the total cost index for 2019 was \$7,403,498. Going forward, for each year the cost index is calculated by adding together the various component costs which are composed of the following cost elements:

- Wage Component
- Fuel Component
- General Expense Component
- Disposal Costs Component
- Performance-Based Component, and
- Agency Payments Components

For each cost component, the franchise agreement provides a detailed discussion around the component and its adjustment over time.

### 2.4 Unscheduled Service (Attachment Q)

The rates for unscheduled services are contained in Attachment Q of the Franchise Agreement and are annually updated in accordance with the Franchise Agreement. Attachment Q is established in 11.03 of Article 11, Annual Adjustment of Maximum Rates for Unscheduled Services.

The Maximum Rate set forth in Attachment Q is adjusted annually by multiplying the then effective Maximum Rate by the Consumer Price Index (CPI) for the year immediately preceding the year of the calculation and dividing the result by the Consumer Price index for the year two years prior. For example, the adjustment calculated in 2019 (for rates to be effective 2020), each Maximum Rate is multiplied by the CPI for 2018 and divided by the CPI for 2017. This resulted in an overall rate increase of 2.44% for effective rates in 2020 for the unscheduled services.

---

<sup>2</sup> Franchise Agreement, Section 11.02(B), Annual Adjustment of Maximum Rates for Scheduled Services, p. 89-90.

## 2.5 Summary

This section of the report has provided a brief overview of the relevant portions of the franchise agreement and amendments with Recology. While this overview of the agreement and amendments has been necessarily abbreviated, it does provide a good understanding of the basic framework or methodology used to previously calculate the maximum rate for regularly scheduled service, along with this current time period.

## 3. Review of Recology’s Calculated “Maximum Rates for Regularly Scheduled Services”

---

### 3.1 Introduction

As a part of the Franchise Agreement, Recology calculates the maximum rates for the up-coming calendar year. The calculated maximum rates are formula driven, and as noted in the prior section of the report, there is relatively clear language and numeric examples of the rate indexing process. The purpose of this section of the report is to provide an overview of Recology’s rate filing to the City for the 2020 rate year, along with HDR’s technical review of that filing.

### 3.2 Overview of Recology’s 2020 Rate Index Calculation

On July 31, 2019, Recology provided to the City a letter and the detailed worksheets outlining their calculation of the rate index. The letter, dated July 31, 2019, indicated a maximum increase adjustment of 6.52%. For 2020, the rate index is composed of two cost elements; the CPI cost adjustment and the amended and restated franchise agreement which defines and includes a two-year Transitional Rate Stabilization Fee (TRSF) of 1.25%. HDR conducted a review of Recology’s calculations and determined, based upon the information provided, that it appears to be in compliance with the Franchise Agreement. Provided below in Table 3-1 is an overview of Recology’s rate index calculation. In summary form, this calculation indicates an increase of 6.52% to the 2019 regularly scheduled rates.

Table 3 – 1  
Overview of Recology's Rate Index Calculation

Cost Component	Cost Component Dollars (\$)	2009 CPI Index	2019 CPI Index	2019 Cost Index	2018 Cost Index
Wage Component	\$1,380,122	110.9	135.4	\$1,685,018	\$1,632,750
Fuel Component	211,727	3.45	3.32	203,749	171,836
General Expense Component	1,528,563	214.537	251.107	1,763,066	1,724,675
Agency Component				1,924,909	1,828,608
Disposal Cost Component (i)				1,888,496	1,695,411
Disposal Cost Component (ii)				1,632,673	1,546,938
Disposal Cost Component (iii)				(1,695,411)	(1,570,386)
Performance Based Component					
- Incentives				2,606	6,848
- Disincentives				(1,609)	(3,573)
<b>Total</b>				<b>\$7,403,498</b>	<b>\$7,033,107</b>
			<b>Cost Index 2019 -</b>	\$7,403,498	
			<b>Annual Increase Divided by Cost Index 2018 -</b>	\$7,033,107	
			<b>Annual Percentage Equals -</b>	5.27%	
			<b>Plus: TRSF Fee</b>	1.25%	
			<b>Maximum Rates to be Multiplied by:</b>	<b>6.52%</b>	

- (i) The Contractor's projected costs for April 1 of that calendar year through March 31 of the following year plus
- (ii) The Contractors' actual costs April 1 of the year prior through March 31 of the calendar year minus
- (iii) The contractor's previous projection.

In a more simplified or summarized manner, the rate index for 2020 of an increase of 6.52% is composed of two elements, the CPI cost adjustment and the TRSF fee of 1.25% as follows: The total rate index adjustment:

CPI Cost Adjustment	5.27%
Transitional Rate Stabilization Fee	<u>1.25%</u>
Total Rate Index Adjustment	6.52%

As noted above, the City retained HDR to review the Recology calculations (Table 3-1) to confirm that the proper data appeared to be used within the analysis, and that the mathematical calculations were correct for the 2020 rate year. While Table 3-1 appears rather simple and straight-forward, the calculations are, in some cases, much more complex with other detailed worksheets behind them.

Provided below is a more detailed discussion of the analytical steps taken to review the Recology calculations and the results of our review.

### 3.3 Overview of General Approach Used to Review Calculations

As noted in Section 2, an important starting point for reviewing the rate index calculation is understanding the Franchise Agreement. HDR reviewed the documents, then independently reviewed the rate index calculation. HDR developed spreadsheets to review and attempt to duplicate the Recology calculations for 2020. In this way, HDR could review the data sources used and verify their appropriateness, while at the same time, verifying the formulas used within the calculations.

### 3.4 Summary Conclusions of HDR’s Review of the Rate Index Calculations

Based upon HDR’s detailed review of Recology’s rate index calculation, HDR concluded that the

“ . . . HDR concluded that based upon the existing Franchise Agreement, the maximum rates should be calculated based on the increase in rates of 6.52%.”

rate index used the appropriate data and information for the time period and the calculations within the methodology were correct. As a result of our independent review, HDR concluded that based upon the existing Franchise Agreement, the maximum rates should be calculated based on the increase in rates of 6.52%. Provided below is a more detailed discussion of each of the elements of the calculation of the rate index and the basis for HDR’s summary conclusion.

### 3.5 HDR’s Detailed Review of the Rate Index Calculations

As previously discussed, the focus of HDR’s review was on the calculations used to establish the rate index for the “Maximum Rates for Regularly Scheduled Services”. Article 11 of the Franchise Agreement form the basis for the calculations. As shown in Table 3-1, there is two calculation components to the rate index calculation, the CPI Cost Adjustment Percentage and the Transitional Rate Stabilization Fee (TRSF).

#### 3.5.1 CPI Cost (Index) Adjustment

The rate setting process based on Article 11 is a rolling forward index. For example, the Maximum Rate for 2020 would be calculated in 2019 by reviewing the 2019 and 2009 cost indices. Therefore, as a part of HDR’s review process, both 2019 and 2020 rate setting calculations were reviewed.

In simplified terms, general operating costs are adjusted annually by the use of a cost index. The CPI Cost Index is segregated into seven different cost components. They are as follows:

- **Wages** - The wages for base year 2009 is multiplied by the difference between the 2009 base year Employment Cost Index and the current year Employment Cost Index published for the 4<sup>th</sup> quarter of the year immediately preceding the Calendar Year of the Cost index. In very simplified terms, the agreement uses the wages at the start of the agreement and then simply adjusts wages by a CPI amount.
- **Fuel** – The fuel for base year 2009 is multiplied by the difference between the 2009 average price per gallon and the average price per gallon of fuel for the twelve-month period ending March 31 of the Calendar Year.

- **General Expense** – The general expense base for 2009 is multiplied by the difference between the base year Consumer Price Index and the current year Consumer Price Index.
- **Disposal Costs** – (i) The Contractor’s projected costs for April 1 of that calendar year through March 31 of the following year plus (ii) the Contractors’ actual costs April 1 of the year prior through March 31 of the calendar year minus (iii) the contractor’s previous projection.
- **Performance-Based** – Is the net sum of incentives and disincentives the year immediately preceding the Calendar Year of the Cost Index. The determination of incentives and disincentives is independently determined by another outside party.
- **Agency Payment** – The anticipated amount of total Agency payments as detailed in Article 10 divided by (1 – 0.26) then multiplying the result by 0.26.

For each of the above components, HDR reviewed the source data and information used within Recology’s calculations. As a part of Recology’s packet of information, the source data used by Recology was attached as an amendment. While much of the cost data and information had previously been audited by another outside independent consultant, in those cases where other key assumptions to the analysis were needed (e.g., CPI index), HDR independently reviewed them.

Based on the changes from the 2018 cost index to the 2019 cost index the costs increased by \$370,390 or 5.27% overall ( $\$7,403,498 - \$7,033,107 = \$370,390$  or  $\$370,390/\$7,033,107 = 5.27\%$ ). The majority of the components are based on specific cost indexes and/or formulas as explained previously. Disposal costs are based on projections and actuals and are made of three components the (i) Contractor’s projected costs, (ii) the Contractors’ actual costs of the year prior, and the (iii) Contractor’s previous projection. The projected disposal costs increased by \$193,085 or 11.39%. The actual disposal costs increased by \$85,735 or 5.54%. The Contractor’s previous projection increased by \$125,025 or 7.96%. The total disposal cost overall increased by only \$153,795 or 9.20%. Provided below in Table 3-2 is a summary of the changes in cost index compared from 2018 to 2019.

Table 3 – 2  
Summary of Changes in Cost Index from 2018 to 2019

Cost Component	2018 Cost Index	2019 Cost Index	\$ Difference	% Difference
Wage Component	\$1,632,750	\$1,685,018	\$52,268	3.20%
Fuel Component	171,836	203,749	31,913	18.57%
General Expense Component	1,724,675	1,763,066	38,391	2.23%
Agency Components	1,828,608	1,924,909	96,301	5.27%
Disposal Costs				
Component (i) Projected	\$1,695,411	\$1,888,496	193,085	11.39%
Component (ii) Actual	1,546,938	1,632,673	85,735	5.54%
Component (iii) Reversal	<u>(1,570,386)</u>	<u>(1,695,411)</u>	<u>(125,025)</u>	<u>7.96%</u>
Total Disposal Costs	\$1,671,963	\$1,825,758	\$153,795	9.20%
Performance Based Component				
- Incentives	6,848	2,606	(4,242)	(61.95%)
- Disincentives	<u>(3,573)</u>	<u>(1,609)</u>	<u>1,964</u>	<u>(54.97%)</u>
<b>Total</b>	<b>\$7,033,107</b>	<b>\$7,403,498</b>	<b>\$370,391</b>	<b>5.27%</b>

In summary form, HDR independently confirmed the calculation of the CPI cost adjustment increase of 5.27%. In providing this independent confirmation, HDR did note the Consumer Price Index publishes by month, annual, and bi-annually. By definition within the agreement, the annual CPI is to be used.

### 3.5.2 Transitional Rate Stabilization Fee

At the November 2017 Study Session, the City Council approved a Rate Stabilization Fund (RSF) in order to spread the expected rate adjustment for 2021 over more than a single year (i.e., multiple years). The RSF is funded, in part, by proceeds from a special fee (the RSF Fee) which is included in the maximum rates. The RSF Fee is an Agency imposed fee. That is, it is treated as an Agency Payment (pass-through cost) for purposes of determining the Total Contractors (i.e., Recology’s) compensation for 2019, 2020 and 2021. Recology retains the proceeds from the fee and credits them to the City’s RSF account. The balance of funds within the RSF will be applied as directed by the City to reduce the Maximum Rate increases that would otherwise occur in 2021. Any unused RSF balance in 2021 will be carried forward in 2022 and 2023 and used to offset the rate adjustments at that time.

The RSF fee is applied in 2020 (this rate year) to all regularly scheduled services (i.e., all residential and commercial rates) and shall be equal to 1.25% of Gross Revenue billed on all regular services, including the single-family 20-gallon cart size. The other portion of RSF funding will be derived from the cumulative 2019 (last year), 2020 and 2021 cost true-up adjustment to the single-family 20-gallon carts (i.e., the \$3.00, \$2.00 and \$3.00 adjustments in 2019, 2020 and 2021). In summary form, the RSF is funded in 2020 and 2021 as follows:

Table 3 – 3  
Summary of the Rate Stabilization Fund Special Charges

Description	2020 Cost True-Up [1]	2020 RSF Fee [2]	2021 Cost True-Up
Residential 20 gallon	\$5.00/Month	1.25%	\$3.00/Month
Residential 32 gallon	0.00	1.25%	0.00
Residential 64 gallon	0.00	1.25%	0.00
Residential 96 gallon	0.00	1.25%	0.00
All Other Regularly Scheduled Services	0.00	1.25%	0.00

[1] – 2020 true-up of \$5.00 includes 2019 true-up of \$3.00

[2] – 1.25% of gross revenue billed

It is important to note that the cumulative cost of service adjustment for the 20-gallon cart will be a total of \$8.00/month in 2021 (a 2019 adjustment for 2019 plus an additional \$2.00/month adjustment in 2020 (total of \$5.00), plus an additional \$3.00/month adjustment in 2021 for a total of \$8.00/month adjustment). The 2020 RSF Fee of 1.25% is a “one-time” assessment, the cost true-up adjustment for the 20-gallon cart will carry-forward to 2021. Finally, any proposed rate adjustments in 2021 (i.e., indexing cost adjustments) will be in addition to those shown in Table 3-3.

To better understand the financial impact to customers and the utility of the 1.25% RSF Fee, an exhibit was prepared. If the estimated total billings in 2020 are approximately \$7.8 million, then approximately \$98,000 in revenue would be generated. In total, combining both the cost of service adjustments to the 20-gallon cart and the one-time 1.25% RSF Fee, it is projected to establish a rate stabilization fund of approximately \$470,000 by 2021. Provided in Table 3-4 is a summary of this revenue calculation for the rate stabilization fund assuming 1,922 residential customers with a 20-gallon service.

Table 3 – 4  
Summary Revenue Projections of Rate Stabilization Fund

	2018 Rates	2019	2020	2021	Total
Rate Stabilization Fee (\$/Month)		\$3.00	\$2.00	\$3.00	
Cumulative Fee (\$/Month)	\$22.38	\$3.00	\$5.00	\$8.00	
<b>Rate Stabilization Fund</b>	<b># Cust. =1,922</b>				
20-Gallon Revenue		\$69,192	\$115,820	\$184,512	\$369,024
1.25% Total Billed <sup>[1]</sup>		<u>N/A</u>	<u>98,612</u>	<u>N/A</u>	<u>98,612</u>
<b>Total RSF Fund</b>		<b>\$69,192</b>	<b>\$213,932</b>	<b>\$184,512</b>	<b>\$467,636</b>

[1] Assumed 2020 billed revenue of \$7,888,920 \* 1.25%

The 2019 cost true-up adjustment for the 20-gallon cart of \$3.00/month collected approximately \$35,000 from January through June of 2019, or a half of a year which would be close to the estimates shown in Table 3-4 for 2019.

### 3.6 Conclusions Regarding the Calculation of the Rate Index

Based upon the review of the Recology rate calculation, HDR concluded that the calculation as provided by Recology appears appropriate and in keeping with the original Franchise Agreement. In reaching this conclusion, HDR reviewed and verified the data inputs into the calculation, while also confirming the overall methodology and calculations. Based upon our conclusions, the calculated Maximum Rate Index for 2020 is an increase of 6.52%, in overall rates, as shown below.

CPI Cost Adjustment	5.27%
Transitional Rate Stabilization Fee	<u>1.25%</u>
Total Rate Index Adjustment	6.52%

## 4. Review of the Proposed 2020 Solid Waste Rates

---

### 4.1 Introduction

In the previous section of this report, the rate indexing for the City's 2020 solid waste rates was reviewed. This analysis provides the basis for determining the City's maximum rates. This section of the report will review the maximum solid waste rates for Regularly Scheduled Services (Attachment R) and Unscheduled Services (Attachment Q).

### 4.2 Review of Rate Index Multiplier

From the review of the rate index multiplier, it was concluded that the analysis developed by Recology appears to comply with the City's franchise agreement. The overall adjustment to revenues derived from rates for 2020 is a 6.52% increase in the existing rates. In developing the calculated maximum rates, Recology provided a schedule of the rates. HDR reviewed the calculated maximum rates to confirm that they use the appropriate multiplier. Presented below is a discussion of the present solid waste rates and the proposed 2020 rates for residential and commercial customers.

### 4.3 Residential Regularly Scheduled Services

The present residential rate structure is a flat monthly rate per cart. Residential customers are offered different cart sizes (20, 32, 64 and 96 gallons) for service. The current residential rates in comparison to the SBWMA study cost information, over the past several years, has shown that the 20-gallon cart has not been fully recovering their cost of service. At the November 2017 Study Session, the City Council approved a transition of rates through cost of service adjustments to the 20-gallon cart over the next three rate setting periods (2019 (last year) - 2021). As outlined in the new franchise agreement there are specific adjustments for the 20-gallon level of service. These adjustments, by year, would be as follows:

- 2019 (last year) - \$3.00/month (Cumulative adjustment of \$3.00/month from current rate levels)
- 2020 (current year) - \$2.00/month (Cumulative adjustment of \$5.00/month from current rate levels)
- 2021 (next year)- \$3.00/month (Cumulative adjustment of \$8.00/month from current rate levels)

The above adjustments are in addition to any other rate adjustments (i.e., CPI increases) required for that rate year. As a point of reference, approximately 1,922 accounts, or approximately 28% of the total residential accounts are the 20-gallon cart size. In terms of revenue impacts, the proposed cost of service adjustments to the 20-gallon cart size will generate additional revenue in each year of approximately \$369,000 over the three year period as referenced in Table 3-4.

For the 2020 rates, it is recommended that the rates be equally adjusted across the board to all cart sizes using the overall rate index of 6.52%, with the 20-gallon cart including an additional \$2.00 rate stabilization fee for a total cumulative of \$5.00 for 2020 rates.

Presented in Table 4-1 are the current monthly residential rate and the proposed residential rates for 2020. The adjustments for residential customer’s rates are designed to provide an overall 6.52% revenue increase compared to the present monthly residential rate plus a \$5.00 rate stabilization fee for the 20-gallon cart size.

Table 4 – 1 Summary of the Present and Calculated Maximum Residential Solid Waste Rates (Regularly Scheduled - \$/Month)					
Schedule	Schedule Description	Current Monthly Rate	CPI \$/Month Change	RSF \$/Month Change <sup>[1]</sup>	Calculated Maximum 2020 Rate
R20G	Residential Waste - 20 Gallons	\$23.07	\$1.50	\$5.00	\$29.57
R32G	Residential Waste - 32 Gallons	\$36.47	\$2.38	n/a	\$38.85
R64G	Residential Waste - 64 Gallons	\$71.80	\$4.68	n/a	\$76.48
R96G	Residential Waste - 96 Gallons	\$107.70	\$7.02	n/a	\$114.72

[1] The 2020 proposed 20-gallon cart includes the 6.52% adjustment plus a \$5.00 rate stabilization fee.

#### 4.4 Commercial Waste Carts Regularly Scheduled Service

Some commercial waste customers have similar service to the residential customers in that they have cart sizes that range from 20 gallons to 96 gallons. However, the difference between the residential and commercial service is the number of pick-ups per week. A commercial customer can choose their level of service (number of pick-ups per week). Presented in Table 4-2 is a summary of the current commercial rates and the calculated maximum rate for 2020. The maximum calculated rate assumes a 6.52% increase from the present rates. Some minor rounding of the rates may occur for purposes of ease of administration.

Table 4 – 2  
Summary of the Present and Calculated Maximum Commercial Solid Waste Rates  
(By Gallon Cart Size; Regularly Scheduled - \$/Month)

Schedule	Schedule Description	Collection - Times Per Week						
		1	2	3	4	5	6	7
C20G	Commercial Waste - 20 Gallon							
	Present 2019 Monthly Rate	\$39.01	\$80.24	\$119.46	\$164.02	\$207.52	\$259.65	\$316.30
	<b>Calculated Maximum 2020 Rate</b>	<b>\$41.55</b>	<b>\$85.47</b>	<b>\$127.25</b>	<b>\$174.71</b>	<b>\$221.05</b>	<b>\$276.58</b>	<b>\$336.92</b>
	\$/Month Change	\$2.54	\$5.23	\$7.79	\$10.69	\$13.53	\$16.93	\$20.62
C32G	Commercial Waste - 32 Gallon							
	Present 2019 Monthly Rate	\$43.32	\$89.17	\$132.72	\$182.24	\$230.56	\$288.49	\$351.43
	<b>Calculated Maximum 2020 Rate</b>	<b>\$46.14</b>	<b>\$94.98</b>	<b>\$141.37</b>	<b>\$194.12</b>	<b>\$245.59</b>	<b>\$307.30</b>	<b>\$374.34</b>
	\$/Month Change	\$2.82	\$5.81	\$8.65	\$11.88	\$15.03	\$18.81	\$22.91
C64G	Commercial Waste - 64 Gallon							
	Present 2019 Monthly Rate	\$83.76	\$169.00	\$256.41	\$344.78	\$438.26	\$534.06	\$625.20
	<b>Calculated Maximum 2020 Rate</b>	<b>\$89.22</b>	<b>\$180.02</b>	<b>\$273.13</b>	<b>\$367.26</b>	<b>\$466.83</b>	<b>\$568.88</b>	<b>\$665.96</b>
	\$/Month Change	\$5.46	\$11.02	\$16.72	\$22.48	\$28.57	\$34.82	\$40.76
C96G	Commercial Waste - 96 Gallon							
	Present 2019 Monthly Rate	\$121.06	\$247.96	\$376.30	\$509.01	\$643.53	\$810.07	\$945.06
	<b>Calculated Maximum 2020 Rate</b>	<b>\$128.95</b>	<b>\$264.13</b>	<b>\$400.83</b>	<b>\$542.20</b>	<b>\$685.49</b>	<b>\$862.89</b>	<b>\$1,006.68</b>
	\$/Month Change	\$7.89	\$16.17	\$24.53	\$33.19	\$41.96	\$52.82	\$61.62

As can be seen, the rates have maintained the existing structure for commercial waste customers with carts.

#### 4.5 Commercial Waste Bins Regularly Scheduled Service

Some commercial customers have larger bins which range in size from 1 yard to 6 yards. Commercial waste customers also have the option of different levels of service and can select the number of pick-ups per week. Presented in Table 4-3 is a summary of the current commercial waste bin rates and the calculated maximum rate for 2019. The maximum calculated rate assumes a 6.52% increase from the present rates. Some minor rounding of the rates may occur for purposes of ease of administration.

Table 4 – 3

	<b>Calculated Maximum 2020 Rate</b>	<b>\$896.06</b>	<b>\$1,807.61</b>	<b>\$2,719.17</b>	<b>\$3,641.10</b>	<b>\$4,566.93</b>	<b>\$5,531.16</b>	<b>\$6,515.57</b>
	\$/Month Change	\$54.85	\$110.64	\$166.44	\$222.87	\$279.54	\$338.56	\$398.81
C6YG	Commercial Waste - 6 Yard							
	Present 2019 Monthly Rate	\$1,293.73	\$2,623.87	\$3,944.12	\$5,253.14	\$6,580.81	\$7,955.61	\$9,317.89
	<b>Calculated Maximum 2020 Rate</b>	<b>\$1,378.08</b>	<b>\$2,794.95</b>	<b>\$4,201.28</b>	<b>\$5,595.64</b>	<b>\$7,009.88</b>	<b>\$8,474.32</b>	<b>\$9,925.42</b>
	\$/Month Change	\$84.35	\$171.08	\$257.16	\$342.50	\$429.07	\$518.71	\$607.53

The commercial waste rates for customers with bins have maintained the existing rate structure and rate relationships.

## 4.6 Commercial Organics Bins Regularly Scheduled Service

The rate charged for commercial organics is tied to the commercial waste rate. Commercial organics rates are charged at 70% of the commercial waste rate, for a comparable size bin. Similar to the commercial waste bin customers, commercial organics customers have bins which range in size from 1 yard to 6 yards. The commercial organics customers also have the option of different levels of service and can select the number of pick-ups per week. Presented in Table 4-4 is a summary of the current commercial organics bin rates and the calculated maximum rate for 2019. The maximum calculated rate assumes a 6.52% increase from the present rates. Some rounding of the rates may occur for purposes of ease of administration.

Table 4 –4  
Summary of the Present and Calculated Maximum Commercial Organics  
Solid Waste Rates (By Bin Size in Yards; Regularly Scheduled - \$/Month)

Schedule	Schedule Description	Collection - Times Per Week						
		1	2	3	4	5	6	7

## 4.7 Commercial Organics Carts Regularly Scheduled Service

Commercial customers can also have the smaller gallon-sized carts for organic waste. Presented in Table 4-5 is a summary of the current commercial organics cart rates and the calculated maximum rate for 2019. The maximum calculated rate assumes a 6.52% increase from the present rates. Some minor rounding of the rates may occur for purposes of ease of administration.

Table 4 – 5

	Present 2019 Monthly Rate	\$84.74	\$173.56	\$263.41	\$356.30	\$450.47	\$567.04	\$661.55
	<b>Calculated Maximum 2020 Rate</b>	<b>\$90.27</b>	<b>\$184.88</b>	<b>\$280.58</b>	<b>\$379.53</b>	<b>\$479.84</b>	<b>\$604.01</b>	<b>\$704.68</b>
	\$/Month Change	\$5.53	\$11.32	\$17.17	\$23.23	\$29.37	\$36.97	\$43.13

The commercial organics cart rates have maintained the existing rate structure and rate relationships.

#### 4.8 Other Miscellaneous Solid Waste Rates

The Attachment R solid waste rates also include other solid waste rates for multi-family customers. These rates are shown below in Table 4-6

Table 4 – 6  
Summary of the Present and Calculated Maximum Other Miscellaneous  
Solid Waste Rates (Regularly Scheduled - \$/Month)

Schedule	Schedule Description	
C3CG	Commercial Waste 3 Yard Compactor	
	Present 2019 Monthly Rate	\$1,479.73
	<b>Calculated Maximum 2020 Rate</b>	<b>\$1,576.21</b>
	\$/Month Change	\$96.48
	Solid Compactor Rate Per Yard	
	Present 2019 Monthly Rate	\$113.85
	<b>Calculated Maximum 2020 Rate</b>	<b>\$121.27</b>
	\$/Month Change	\$7.42

## 4.9 Unscheduled Services (Attachment Q)

Recology also provides a number of services that are not considered “regularly scheduled” services and these particular services are not included as a part of the Attachment R rates discussed above. The rate for unscheduled services is contained in Attachment Q of the Franchise Agreement and is annually updated in accordance with the Franchise Agreement.

The Maximum Rate set forth in Attachment Q is adjusted annually by multiplying the then effective Maximum Rate by the Consumer Price Index (CPI) for the year immediately preceding the year of the calculation and dividing the result by the Consumer Price Index for the year two years prior. For example, the adjustment calculated in 2019 (for rates to be effective 2020), each Maximum Rate is multiplied by the CPI for 2018 and divided by the CPI for 2017. This resulted in an overall rate increase of 2.44% for Attachment Q rates effective in 2020 for the unscheduled services. Attached as a part of the technical appendices are the proposed Attachment Q rates for unscheduled services.

## 4.10 Summary

This section of the report has reviewed the present solid waste rates and the 2020 calculated maximum rates. Detailed exhibits of the Attachment R and Attachment Q rates can be found in Technical Appendix A and B, respectively.

## 5. Summary of Solid Waste Rate Findings, Conclusions and Recommendations

---

### 5.1 Introduction

This report has reviewed the calculated Maximum Rate as developed by Recology. HDR used a systematic process to review the calculation of the rate index, along with the resulting maximum rates for regularly scheduled service.

### 5.2 Summary Findings, Conclusions and Recommendations

HDR reviewed the Recology rate calculation and concluded that the rate index and resulting maximum solid waste rates for 2020 were calculated in a manner which reflected the intent of the Franchise Agreement the additional rate stabilization fee (RSF) for the residential 20-gallon cart size.

On September 24, 2019, HDR will present the proposed 2020 rates for both the scheduled services, Schedule R and unscheduled services, Schedule Q to the City Council.

### 5.3 Looking Ahead – Future Rate Adjustment to 2021

The 2021 rate adjustment will include the CPI adjustment, and the single-family 20-gallon cart cost adjustment of \$3.00 for 2021 for a cumulative RSF fee adjustment of \$8.00 (i.e., the \$3.00, \$2.00 and \$3.00 adjustments in 2019, 2020 and 2021). The indexing cost adjustments will be in addition to this fee. No large or unusual indexing cost adjustment is anticipated for 2021.

### 5.4 Summary

This completes the review conducted by HDR for the City of Belmont on the 2020 Solid Waste rates. This report has met the City's requirement to conduct a due diligence on the rate index and resulting solid waste rates as submitted by Recology.

## Technical Appendix A – Attachment R Regularly Scheduled Service

---

The following Attachment R rates are the proposed 2020 rates.

**Attachment R  
Maximum Rate Schedule**

**Effective January 1, 2020 to December 31, 2020**

**Monthly Rate**

<b>RESIDENTIAL CARTS</b>				
	<b>Cart Size (in Gallons)</b>			
	<b>20</b>	<b>32</b>	<b>64</b>	<b>96</b>
1 Pickup Per Week	\$29.57	\$38.85	\$76.48	\$114.72

Residential customers are billed based on their Garbage Cart size.  
The monthly rate above includes the following:  
One (1) Garbage Cart provided to customer  
Curbside Household Hazardous Waste Collection  
One (1) 64-Gallon Recycling Cart and (1) 96-Gallon Yard Waste Cart

**Attachment R  
Maximum Rate Schedule**

**Effective January 1, 2020 to December 31, 2020**

**Monthly Rate**

**COMMERCIAL CARTS**

		Cart Size (in Gallons)			
		20	32	64	96
# of Pickups Per Week	1	\$41.55	\$46.14	\$89.22	\$128.95
	2	85.47	94.98	180.02	264.13
	3	127.25	141.37	273.13	400.83
	4	174.71	194.12	367.26	542.20
	5	221.05	245.59	466.83	685.49
	6	276.58	307.30	568.88	862.89
	7	336.92	374.34	665.96	1,006.68

The monthly rate above includes the following:

- One (1) Garbage Cart
- Recycling Cart

**COMMERCIAL CARTS ORGANICS**

		Cart Size (in Gallons)		
		32	64	96
# of Pickups Per Week	1	\$32.31	\$62.47	\$90.27
	2	66.48	126.01	184.88
	3	98.96	191.18	280.58
	4	135.89	257.09	379.53
	5	171.92	326.79	479.84
	6	215.13	398.18	604.01
	7	262.06	466.17	704.68

**Note:** Organics containers are charged at seventy percent (70%) of the similar Garbage commercial cart rate above container size and service levels for Garbage, representing a thirty percent (30%) discount

**Attachment R  
Maximum Rate Schedule**

**Effective January 1, 2020 to December 31, 2020**

**Monthly Rate**

**COMMERCIAL BINS**

		<b>Bin Size (in Cubic Yards)</b>				
		<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>6</b>
<b># of Pickups Per Week</b>	1	\$216.37	\$435.24	\$656.41	\$896.06	\$1,378.08
	2	440.52	877.62	1,320.74	1,807.61	2,794.95
	3	668.51	1,324.18	1,988.96	2,719.17	4,201.28
	4	899.15	1,773.99	2,659.19	3,641.10	5,595.64
	5	1,131.65	2,230.15	3,331.72	4,566.93	7,009.88
	6	1,412.36	2,632.82	4,044.56	5,531.16	8,474.32
	7	1,666.41	3,118.13	4,762.37	6,515.57	9,925.42

The monthly rate above includes the following:

One (1) Garbage Bin

Recycling container at customer's requested size

**COMMERCIAL BINS ORGANICS**

		<b>Bin Size (in Cubic Yards)</b>				
		<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>6</b>
<b># of Pickups Per Week</b>	1	\$151.47	\$304.68	\$459.48	\$627.24	\$964.66
	2	308.35	614.33	924.54	1,265.32	1,956.46
	3	467.94	926.93	1,392.28	1,903.42	2,940.88
	4	629.41	1,241.78	1,861.43	2,548.77	3,916.95
	5	792.16	1,561.08	2,332.19	3,196.84	4,906.92
	6	988.67	1,842.97	2,831.20	3,871.84	5,932.02
	7	1,166.49	2,182.69	3,333.66	4,560.90	6,947.79

**Note:** Organics containers are charged at seventy percent (70%) of the similar garbage container size above and service level for garbage, representing a thirty percent (30%) discount

**Attachment R**

**Maximum Rate Schedule**

**Effective January 1, 2020 to December 31, 2020**

**Monthly Rate**

<b>GARBAGE COMPACTORS</b>	
Commercial Waste 3 Yard Compactor	\$1,576.21
Solid Waste Compactor Rate Per Yard	\$121.27
The monthly fee above includes the following: Recycling container at customer's requested size	

---

## Technical Appendix B – Attachment Q Unscheduled Services

---

The following table specifies Maximum Allowable Rates for Unscheduled Services. These Maximum Rates shall be adjusted annually in accordance with Article 11.

**Attachment Q  
Unscheduled Services**

The following table specifies Maximum Allowable Rates for Unscheduled Services. These Maximum Rates shall be adjusted annually in accordance with Article 11.

<b>Unscheduled Service Category</b>	<b>Reference</b>	<b>Cost</b>	<b>Description of Cost</b>
Single-Family Dwelling Backyard Collection Service	Section 5.02.A	See Table Below	See Table Below
Distance Charge for MFD and Commercial Accounts More than 50 Feet From the Curb	Section 5.02.B and 5.02.C	A - 10% of Base monthly rate B - 25% of Base monthly Rate	A - 51 to 100 feet from Curbside B - 101 feet or more from Curbside
Extra Pick-up Cost for MFD and Commercial Customers	Section 5.02.B and 5.02.C	30% of base monthly Rate for the size of Container Collected once per week	Per Collection event
Single-Family Return Trip Cost (i.e. request to provide Collection service on other than the regularly scheduled Collection day)	Section 5.02.A	\$17.56	Per Collection event
Additional Targeted Recyclable Materials or Organic Materials Cart Rental	Sections 5.03.A and 5.04.A	A - \$1.16 B - \$3.50	A - Monthly rental fee for Targeted Recycling Cart (any size) B - Monthly rental fee for Organics/Yard Waste Cart (any size)
Additional E-Scrap Pickup Trip	Section 5.505.B4	Varies by number of items	\$29.27 for each trip (up to five items) \$11.70 per item for each additional item on the same trip \$99.49 per item for large console TV's

**Attachment Q**  
**Unscheduled Services (Continued)**

Unscheduled Service Category	Reference	Cost	Description of Cost
Additional Confidential Document Destruction Service Event	Section 5.07	\$1,404.55	Per Event
Litter Abatement and Collection Service	Section 5.09B	\$79.60 per hour with an eight (8) hour minimum per service person (includes truck)	Per Event
Additional Compost Material Delivery	Section 5.11	A - \$146.30 B - \$292.62	A - one way delivery (compost left on site) B - two way delivery (Drop box left on site)
Fee for Service On-Call Bulky Item Collection Service	Section 5.12	\$95.46	Per Event
Additional Community Drop-Off Events	Section 5.13	\$23,877.38 Additional \$1.16 per household for post card announcement if requested by Agency	Per event targeting approximately 6,000 households. Does not include disposal.
Collection for Additional Agency-Sponsored and Non-Agency sponsored Large Events (other than the number of events specified in Attachment C)	Section 5.08	A - \$3,511.38 B - \$5,852.29 C - \$8,778.45	A - one-day events with a projected 2,500 or fewer attendees B - one (1) or two (2) day events less than 7,500 attendees per day, that does not qualify for Category A above C - one (1) or two (2) day events with a projected 7,501 to 10,000 attendees per day
Emergency Services	Section 7.08	\$146.30/hour	Cost includes refuse collection vehicle and driver

**Attachment Q**  
**Unscheduled Services (Continued)**

Unscheduled Service Category	Reference	Cost	Description of Cost
Fee to Collect Contaminated Targeted Recyclable Materials or Organic Materials Container	Section 6.03.A and 8.02.F	25% of the base monthly Rate for the size of Container Collected once per week plus: \$17.56	Per Collection Event
Key Service	Section 8.02.B	A - \$9.95 B - \$11.12	Monthly cost: A - Residential Customers B - Commercial Customers
Lock purchase fee (replacement at no additional cost)	Section 8.02.B	\$19.90	One-time per Account cost.
Overage Fee (Unless Overage Bags purchased)	Section 8.02.G	100% of the base monthly Rate	Per Collection event
Overage Bags Cost (includes Collection)	Section 8.02.G	\$9.36	Per bag
Container Cleaning Fee	Section 8.05.D	A - \$58.53 B - \$99.49	A - per Cart B - per Bin or Drop-Box
Dirty Cart Replacement Cost	Section 8.05.D	A - \$76.09 B - \$87.79 C - \$99.49	A - per 32 gallon Cart B - per 64 gallon Cart C - per 96 gallon Cart

**Attachment Q**  
**Unscheduled Services (Continued)**

<b>Backyard Collection Service Distance Costs for Single Family Dwellings (Section 5.02.A)</b>				
<b>Distance from Curbside</b>	<b>One (1) Solid Waste Cart</b>	<b>Two (2) Solid Waste Carts</b>	<b>Three (3) Solid Waste Carts</b>	<b>Four (4) Solid Waste Carts</b>
0 - 50 feet	\$21.06	\$33.61	\$67.23	\$100.84
51 - 100 feet	24.58	37.13	70.74	104.37
101 - 150 feet	28.08	40.64	74.24	107.87
151 - 200 feet	31.60	44.15	77.76	111.39
201 - 250 feet	35.11	47.66	81.29	114.90
251 - 300 feet	38.62	51.17	84.79	118.40
301 feet or more	42.14	54.67	88.31	121.92
